

Pierre Lalonde
Golf Performance Coach
TPI Level 3

3D Biomechanics, Golf mechanics, Juniors, Power & Strength Coach.

A properly functioning body allows a player to swing a golf club in the most efficient way possible.

TPI has analyzed how physical limitations in a player's body can adversely affect the golf swing and potentially lead to injury.

TPI believes golfers will benefit the most from a healthy and efficient body.

TPI does not believe in one way to swing a club, rather in an infinite number of swing styles. But, we do believe there is one efficient way for every player to swing and it is based on what the player can physically do.

K-VEST has emerged as the industry leader in real-time biofeedback training. The new Unleashed platform combines visual and auditory biofeedback to provide players with feedback on swing drills (full swing/short game) as well as stability/mobility based exercises. When a player is in a desired position, they receive visual feedback via a green 3D animation while music simultaneously provides positive reinforcement. Once they are out of the desired range, the animation turns red and the music ceases. All biofeedback programs are fully customizable based on desired style and a player's physical abilities. Our 6D software includes an additional 24 biofeedback drills for top and impact.

Measures : **your swing efficiency, where you generate (and lose) power, sequence, timing.**

Trackman Pro

Trackman tracks the flight of the ball and the movement of the club. Tells the coach why the ball did what it did and what the club to cause that.

Golf Coaching Programs For Adults & Junior

Guaranteeing results with an holistic approach to coaching g

Are you looking to drastically lower your scores?

We will simplify and accelerate the learning process so you will achieve lasting results faster than any other form of golf instruction available.

How do we accomplish these results? We know how great players think, practice and play. So rather than reinvent the wheel, we coach our players in collegiate style team environment. This allows for consistent weekly coaching sessions, a competitive team environment and most importantly more time with your coach on the course!

A Plan that is fit for you:

Step 1. We assess your current game & define your golfing goals.

Step 2. We create an individualized improvement plan achieve your goals results.

Step 3. We determine which sensory teaching method best enables your learning process.

Step 4. We give you the tools, skills and routines that will unlock your potential

What are the tools and skills we will learn?

1st Key - Mastering the Golfing Mindset

2nd Key - Understanding and applying The Scoring Game

3rd Key - Learning and applying "Purposeful Practice" just like all top players do around the world

What results can you expect?

We guarantee we will get you to your goals or we will teach you for FREE.
